Geranium - 'Patriot'

The Patriot Geranium produces a deep green foliage with a very faint zonal pattern. These geraniums are desired most for their beautiful foliage, extraordinary showy blooms extending above the foliage, proven tolerance for heat and its mounding habit. This is a great annual for Spring, Summer, and Fall. With the mounding habit of the Patriot Geranium and early, abundant blooms, this is a perfect choice for mixed containers and beds. The Patriot Geranium prefers full sun to partial shade. It matures to about 24-30" tall and about 12-24" wide and prefers average, moist but well-drained soil. Trimming back dead blossoms encourages new blooms. Please remember, containers aren't as drought resistant, they may need a little extra TLC and consistent watering if in containers!

Patriot Red produces bright red blooms that raise above the green foliage for a regal display. The Patriot Pink produces blooms of bright pink. The Patriot Violet produces a bright red-violet bloom above its green foliage. Patriot Salmon produces a lovely deep peach colored bloom while Patriot White produces a true white bloom.

Plant it Here!

- Containers
- Landscape
- Baskets
- Edging
- Focal Point

Extra! Extra!

- Looks great when planted in containers, beds, and along entryways.
- Plant with Angelonia, Euphorbia, or Calibrachoa for gorgeous containers or baskets
