Alyssum - 'Easter Bonnet'

The Alyssum grows very compact with a multitude of pristine delicate flowers growing to be between 6-9" tall. It is heat tolerant and works very well along walkways and edges of beds. Alyssum spreads elegantly to about 8-10" wide. This sweet annual grows quickly and blooms continuously, so it's always a favorite with landscapers! Alyssum prefers full sun but will handle a little shade just fine too. Soil should be moist but well drained. The blooms are frilly and produce a wonderful scent that may attract butterflies and hummingbirds. Alyssum is available in the Easter Basket Mix is a pastel mix of rose, lavender, purple and a bit of white. Violet is a medium color purple, and White that looks good with everything in your beds or containers! While it will grow in all zones, it will halt growth during the Summer in the warmest climates. Perfect for Spring and Fall!
