## Pansy - 'Cherry Cream'

Looking for something a little different? Not your everyday pansy, Designer Collection Cherry Cream features a combo a primary white w/ blotch flower surrounded by gorgeous deep purple petals. It has a very dramatic look. Designer Collection features unique novelty colors with sure fire appeal.

Quite possibly the most popular and recognizable fall annual, pansies come in a wide variety of shapes and sizes. The flower size of pansies ranges from 2½" to 4" depending on the type. They are compact low-growers, making them ideal for edging and rock walls and paths. Pansies planted in the fall generally have more uniform and bloom, and grow slightly larger flowers than their spring companion pansies. Plant them in well-prepared sunny to partly shady beds, making sure they get at least 3 hours of sun a day. Make sure you leave the crown of leaves above the soil because planting them too deeply can lead to root rot. They grow best in a loose, rich soil with regular water. Don't over-water or they will begin to look disheveled. These colorful plants are nowhere near high-maintenance, but as with most bedding plants, they require a little TLC to add a gorgeous touch to your garden.
