## Angelonia- 'carita'

Carita Angelonia appears to be a delicate plant with dainty flowers, but it is tough! It has dense stems and grows in a compact upright habit. Carita Angelonia produces many blossoms on its tall stems and is tough enough to handle the summer heat and near drought conditions. Tough never looked so sweet! Angelonia grows a multitude of delicate flowers maturing to 16-20" tall. It spreads to about 14-18" wide. Angelonia is heat tolerant and works very well along walkways, edges of beds and in any Spring or Summer container. This sweet annual grows quickly and blooms continuously, so it's always a favorite with landscapers! Angelonia prefers full sun but will handle a little shade just fine too. Soil should be moist but well drained. Angelonia is available in Raspberry, Lavender, and White. Perfect for Spring and Summer color, anywhere you want a burst of ever-blooming color!
