Argyanthemum

Argyanthemum has an upright mounding habit and will produce lovely daisy-like blooms for your Spring and Fall beds and containers. These beauties will mound up to heights of 22". It spreads to about 12-18" wide, so try not to crowd them! Argyanthemums like the cool Spring and Fall weather best. This sweet annual will bloom all Spring, but if you dead head these pretties, they will repay you with even more blooms! Argyanthemum prefers full sun but will handle a little shade just fine too. Soil should be moist but well drained. Sassy Argyanthemums are available in Compact White, Pink, and Shere Monroe Scarlet. Meteor Red is also available! These are exceptionally lovely in containers or hanging baskets as a dense center with other plants mingled among and around it.
