MUM ~ 'Wilma White'

Chrysanthemum is from the Greek words, chrysos (gold) and anthoas (flower). The most popular flower form is the "decorative garden mum," which is so packed with long, broad petals that you can hardly see its center.

Wilma is a brilliant white decorative mum. Wilma has beautiful, angelic white flowers and is an easy to grow perennial.

Mums prefer to be planted in an area that receives full sun, but most can get by with a half day of direct sunshine. For best growth, plant your fall mums in fertile well drained soil. Plant at least 6 weeks before a heavy frost to establish itself, therefore increasing its chances of returning the next year!

These pristine pretties will grow 18-24" tall, full and bushy, so they should be planted 18-24" apart. Having good circulation between the plants will help reduce the chance of powdery mildew on your plants.

Plant it Here!

- Borders
- Landscape
- Containers
- Ground Cover
- Mass Planting
- Anywhere you want a bold display of color!!

Extra! Extra!

- Perfect for Fall landscape
- Intense blooms to embellish borders
- Pair with Pansies and Violas for a spectacular Fall planter!
- Mulch plant in the winter for extra protection
- Color through late Summer and Fall
