Nicotiana - 'Starmaker'

Nicotiana Starmaker comes in a variety of shades sure to catch your eye. These unique, star-shaped flowers are early bloomers that bloom all summer long. Nicotiana's are exceptional in heat and humidity, nearly drought tolerant. The more sun you offer them, the longer their blossoms will stay open.

Nicotiana Starmaker is a half-hardy annual that can grow in full sun or partial shade. Nicotiana prefers average, well drained soil. It needs about 6 hours of sun a day to bring out its good looks. Nicotiana will bloom repeatedly throughout Spring, Summer and Fall. You should remove spent flowers before they go to seed to contain the spread of the plant. Mulch to reduce weeds.

Sedan Floral offers Nicotiana Starmaker in Appleblossom, Bright Red, Lime/Purple Bicolor and Pink Picotee.
