## Hibiscus - 'Mandarin Wind'

Mandarin Wind produces dark pink centers in orange blooms that make for a pretty pairing amidst the lustrous green foliage. The Hibiscus, is commonly referred to as a Tropical Hibiscus or Queen of the Tropics.

This beauty is actually a tender perennial shrub in frost-free zones. This eye catcher produces shiny green leaves and large, showy blooms up to 6 and 7"! With vibrant colored blooms and exceptional heat tolerance, this is a great summer choice for containers and landscape! This lovely shrub can reach up to 2-3' tall and 2-3' wide.

The Hibiscus is heat tolerant, prefers full sun and average, well-drained soil. If not in a frost-free zone, bring this beauty inside for the winter and set back out when threat of frost has diminished.
