Begonia - 'Cocktail'

Begonia is a favorite of landscapers and homeowners alike. It is a compact plant that blooms all summer long and is very uniform in its habit. Begonias prefer full sun to part shade. This is a very hardy annual that grows near 8-10" tall and spreads nearly 6-8" wide. Begonias produce many small blooms for your Spring, Summer and Fall beds and containers. Begonias prefer moist but well drained soil. The Cocktail Series is a bronze leaf begonia which has dark, bronze leaves unlike its green leaf counterpart. Cocktail begonias are available in White, Pink, Red and a mix of colors as well. If you need Begonias for your landscape designs, try to get a pre-book in, these sell out every year and we just keep planting more!
