SEDAN FLORAL GROWN SAFE™

BEEFMASTER TOMATOES

This beefsteak variety of tomato is awesome in Mid-western climates but can handle many different climates as long as the growing season is not too short. This good flavored, up to 2 pound fruit tastes delicious when added to a salad or sandwich. The Beefmaster Tomato plant produces huge yields of large, meaty beefsteak fruit. It grows 4-6' in height and should be spaced 18-24" apart. Tomatoes will turn deep red when mature and will be shaped like a beefsteak.

Where to Plant

Border or Bed
Container
Focal Point
Mass Planting

Serve It Up

Bake
Broil
Fry
Grill
Raw
Sauté
Stew

Complimentary Foods

Anchovies	Eggs	Pasta
