SEDAN FLORAL GROWN SAFE™

JET STAR TOMATOES

This tasty, mild-flavored fruit matures early with tremendous yields. The Jet Star Tomato is a main season, standard tomato and is bright red, smooth and globe-shaped. It averages 7-8 oz. and is usually about 4-6" tall. It should be placed in full sun for best results and is great in salads or for slicing and canning. This delicious tomato is so easy and so big that you'll look like a pro gardener, even if you are new to the tomato growing world. Nothing compares to vine-ripened tomatoes, especially out of your own garden.
