SEDAN FLORAL GROWN SAFE™

LEMON BOY TOMATOES

This unique, shiny yellow tomato is perfect for mixing it up and trying something new. Lemon Boy Tomatoes are vibrant yellow and will turn more golden the longer they are on the vine. They are perfect for slicing and are the perfect color complement when used to make salsa. They are vigorous and resistant to tomato pests, and they should be spaced 24-36" apart with rows 48" apart. Harvest lasts several months, with blossoms and fruit developing progressively. Their fruit is medium-sized, generally around 7 oz., and prefers full sun (6 or more hours of direct sunlight). If you are looking to add flavor as well as color to almost any dish that welcomes tomato, the Lemon Boy is right up your alley!

Where to Plant
