SEDAN FLORAL GROWN SAFE™
SUPER SWEET 100 TOMATOES

This Super Sweet Tomato plant bears 100 or more 1" tomatoes that are smaller than Cherry Tomatoes. Bursting with sugary flavor, these scarlet red tomatoes are great for salads or even a sweet snack. The plant should be staked on a cage because they are vigorous climbers. You should space the Super Sweet 100 Tomato plant about 2-3' apart and provide plentiful water until the fruit starts to color, then reduce the water amount so you will have more flavorful tomatoes. Harvest when they are in full color for a big burst of flavor.

Where to Plant
