COSMOS - 'Cosmic'

Commonly referred to as "Cosmos", has a compact, upright habit. The cheery orange blooms will brighten your day! Dense foliage and plentiful blooms make this beauty popular in the landscape, baskets, and any container you may choose. Cosmos will mature between 1' - 2' feet tall and spread just as wide! Cosmos prefer full sun and average, well drained soil. These are lovely and great for use in fresh flower arrangements. Although they are considered "drought tolerant" please be careful, plants in containers may need a bit more TLC to maintain their beauty.

Plant it Here!

Container
 Edging
 Landscape
 Mass Planting
 Hanging Basket

Cosmos are available in Cosmic Red, Orange, and Yellow.

Extra! Extra!

- Great border plants
- Plant with Zinnias and Euphorbia for a beautiful container!
- Mix with other shades of Cosmos and Calibrachoa
