## Geranium - 'Calliope'

Calliope Dark Red produces deep red blooms that raise above the green foliage for a regal display. The Calliope Geranium produces a medium green foliage with a very faint zonal pattern. Calliope geraniums are desired most for their beautiful foliage, showy blooms extending above the foliage, tolerance for heat and its mounding habit. This is a great annual for Spring, Summer, and Fall. The mounding habit of the Calliope Geranium makes this is a perfect choice for mixed containers and baskets. The Calliope Geranium prefers full sun to partial shade. It matures to about 18-20" tall and about 12-14" wide and prefers average, moist but well-drained soil. Trimming back dead blossoms encourages new blooms. Please remember, containers aren't as drought resistant, they may need a little extra TLC and consistent watering if in containers!

### Plant it Here!

### Extra! Extra!

- Looks great when planted in containers, beds, and along entryways.
- Plant with Angelonia, Euphorbia, or Calibrachoa for gorgeous containers or baskets
