Pansy - 'Colossus Red w/ Blotch'

Ooh la la, take a look at this sassy pansy. The vibrant red tone with a deep colored center will catch the eye of anyone walking past your garden. This popular series features extra large upward facing blooms, a tight plant habit and prevents stretching during warm conditions.

Quite possibly the most popular and recognizable fall annual, pansies come in a wide variety of shapes and sizes. The flower size of pansies ranges from 2½" to 4" depending on the type. They are compact low-growers, making them ideal for edging and paths.

Plant them in well-prepared sunny to partly shady beds, making sure they get at least 3 hours of sun each day. Make sure you leave the crown of leaves above the soil because planting them too deeply can lead to root rot. They grow best in a loose, rich soil with regular water.

Don't over-water or they will begin to look disheveled. These colorful plants are far from high-maintenance, but as with most bedding plants, they may require a little TLC to add a gorgeous touch to your garden.

Plant it Here!

- Border
- Container
- Edging
- Mass Planting

Extra! Extra!

- Very pleasant scent
- Pansy foliage and blooms are edible
- Rich in Vitamins A & C
- Have been used in the making of syrup
- Great garnish for cold fruit or cream soups
