Lantana

Lantana produces a pretty dark green foliage and covers itself with multi-flowering blooms. The mounding growth habit and colorful blooms makes this a fantastic choice for landscape, baskets and containers! Its blooms are amongst the foliage that bloom right up until the frost. The Lantana is desired most for their bright, ever-blooming colors, heat tolerance, low maintenance and mounding growth habit for landscape, beds, baskets and containers. This is a great annual for Spring, Summer, and Fall. The Lantana prefers sun but can handle some shade. They mature to about 20-26" tall and about 24-32" wide and grow best in average, well drained soil. Trimming back dead blossoms encourages new blooms, but these low maintenance beauties don't need to be deadheaded. Please remember, these pretties may need a little extra TLC and more consistent watering, especially if in containers!

Lantana is available in Bandana Cherry, Bandana Pink, Dallas Red, Confetti, New Gold, Frans Red, Irene, Pink Caprice, Samantha, Silver Mound.

"What you need to know
to grow plants
