BIG BERTHA

Big Bertha produces a 7" long thick walled crisp pepper. They are extremely sweet and easy to grow.

Be sure to water them regularly, being careful not to saturate the root system.

Use rubber bands to support the plants allowing them to expand without breaking from the peppers.

Plant it Here!

Fried  
Sautéed  
Grilled

Harvest Instructions

Peppers can be harvested at any stage of growth, but their flavor doesn't fully develop until maturity.

Maturity is dark green to shiny red.

Use sharp garden tools to cut the stem to avoid damaging the plant.

Health Benefits

Full of Vitamins A & C  
Contains Folate & Vitamin B6
