Squash "Table Ace"

Table Ace Squash is a high yielding acorn squash. It produces 5 to 7 fruits per plant, weighing 2 pounds.

This dark green squash has a smooth texture and sweet, nutty flavor.

Hint: Prop up fruit if rot appears to keep off moist soil until ready to harvest.

Plant it Here!

Gardens
Large Containers
Raised Beds

Serve it up

Baked
Sautéed
Grilled

Harvest Instructions

Harvest when stems begin to shrivel or you can no longer pierce the skin with a thumbnail, but be sure to harvest before the first hard frost.

Health Benefits
