Petunia - 'Shock Wave'

The Shock Wave Petunia produces velvety green foliage and adorns itself with an abundance of bright blooms. The mounding, trailing growth habit and colorful blooms makes this a great choice for landscape, baskets and containers! Its blooms are scattered among the foliage and bloom through early Spring, Summer, and Fall. Shock Wave Petunias are desired most for their smaller, abundant, bugle-shaped blossoms and mounding, trailing growth habit for landscape, beds, baskets and containers. This is a great annual for early Spring, Mother's Day, Summer and Fall. The Shock Wave Petunia prefers sun but can tolerate some shade. They mature to about 7-10" tall and about 30-36" wide. The Shock Wave grows best in moist, well drained soil. Please remember, this lovely may need a little extra TLC and more consistent watering when in a container or basket!

The Shock Wave Petunia is available in Denim and Pink Shades.
