Petunia - 'Double Cascade'

The Double Cascade Petunia produces a velvety green foliage and adorns itself with an abundance of ruffled blooms. The compact, mounding, semi-trailing growth habit and multitudes of colorful double blooms makes this a great choice for landscape, baskets and containers! Its blooms are scattered among the foliage and bloom through early Spring, Summer, and Fall. They mature to about 10-15" tall and about 10-12" wide. Double Cascade Petunia is desired most for its showy blossoms, heat tolerance, and mounding, semi-trailing growth habit for landscape, beds, baskets and containers. This is a great annual for early Spring, Mother's Day, Summer and Fall. Double Cascades prefer full sun but can tolerate some shade. Double Cascade Petunia grows best in moist, well drained soil. Please remember, this beauty may need a little extra TLC and more consistent watering when in a container!

Double Cascade Petunias are available in Burgundy and Pink.

"What you need to know
to grow plants
You're proud to show"
