SEDAN FLORAL GROWN SAFE™
CURLED PARSLEY

The use of Curly Leaf Parsley may be favored by some because it cannot be confused with poison hemlock, like Flat Leaf Parsley. Parsley is a bright green biennial herb grown as an annual used for its leaves. Curly Leaf Parsley is often used as a garnish. The leaves may be cut all season for use as needed. In the fall they may be dried and stored in tight jars. Parsley grows well in loamy garden soil rich in nitrogen and does best in full sun or part shade. For the fullest flavor and the most nutrition use fresh Parsley instead of dried. With recipes calling for dried Parsley you can substitute up to three times as much fresh Parsley.

Where to Plant

- Border or Bed
- Container
- Edging
- Focal Point
- Fragrant
- Great Foliage
- Ground Cover
- Mass Planting

Cuisine

- French
- Hungarian
- Mediterranean
- Middle Eastern
- Russian
- Spanish
- Turkish

Complimentary Foods

- | | | |
|-------------|-----------|------------|
| Broccoli | Fish stew | Rice |
| Cauliflower | Goulash | Shellfish |
| Chicken | Lamb | Stroganoff |
| Crab | Potatoes | Veal |

Flavor Pals

- Basil
- Bay Leaf
- Chervil
- Chives
- Dill
- Garlic
- Oregano
- Thyme
