## Hypoestes

Hypoestes has many names but best known as the Polka Dot Plant. It produces beautiful mounding foliage that grows 10-18" tall. The leaves are green with splashes of red, pink or white making it a favorite among gardeners and landscapers alike.

For good leaf color make sure the plant gets plenty of bright light, not direct sun or leaves will scorch. Hypoestes require moist soil, if it's too dry the leaves will wilt and drop off.

With a little TLC you will have a beautiful plant for inside your house or in your garden.

### Plant it Here!

Border  
Container  
Mass Planting

### Extra Extra!

- Ideal for landscape
- Does great in containers
- Pinch stems for a fuller plant
